

BEAR-TEX ROLLS

Rolls

Beartex Rolls are offered with the same abrasives and range of grits as hand pads.

Bearex Rolls are available in standard length of 10 metres and width of 0.15 metres. They can be made available in any width and length to suit various applications. Beartex rolls provide an economical source from which the operator can cut the required sheet to a size for hand or machine sanding to suit a particular application.

TYPICAL APPLICATIONS

- ▶ Finishing of rolls in steel mills
- ▶ Finishing food processing equipment
- ▶ Finishing of SS furniture & kitchen equipment
- ▶ Finishing of plywood in stroke sanding applications.
